

#kontakt

.sectionwrapper

The diagram illustrates a two-column layout structure. It consists of a large outer container labeled '#kontakt'. Inside this container is a rectangular area labeled '.sectionwrapper'. Within the '.sectionwrapper' area, there are two identical, side-by-side rectangular columns, each labeled '.column'. The columns are separated by a small gap. The entire structure is enclosed within the '#kontakt' container.

#styletile

.sectionwrapper

The diagram illustrates a CSS style tile structure. It features a large outer rectangle with a black border. Inside this rectangle, at the top left, is the text label '.sectionwrapper'. Below this label is a large rectangle with an orange border. Inside the orange rectangle, at the top left, is the text label '.column'. Below this label are two identical, side-by-side rectangles with red borders. Each of these red rectangles is empty, representing content areas within the columns.
